

RAMJI SANMUGAM

☎ Ph. No : 6374333473 | ✉ Email : ramjisk28@gmail.com | 🐙 [GitHub](#) | 💼 [Linked In](#) | 🌐 [My Portfolio](#)

OBJECTIVE

To obtain an entry-level position where I can apply my foundational knowledge of **Java, Python**, and **SQL** to contribute to software development and data-driven solutions, while expanding my technical skills and professional experience. Eager to learn emerging technologies, solve real-world problems, and collaborate in a team-oriented environment. Committed to delivering high-quality work with attention to detail and a strong problem-solving mindset.

TECHNICAL SKILLS

- Programming Languages: Java and Python.
- Databases: SQL
- Tools & IDEs: IntelliJ | Pycharm | MySQL Workbench |
- Version Control: Git and GitHub.

PROFESSIONAL EXPERIENCE

► JAVA & SQL DEVELOPMENT INTERN – ARTIFAI TECH 7 DAYS INTERNSHIP

AUG 2025

- Developed a **Java Calculator Application** using **Java FX**, implementing core arithmetic functionalities and error handling.
- Designed and implemented a **Blood Donation Management System** using **SQL WorkBench** for managing donor records, blood inventory, and request tracking.
- Uploaded both projects to **GitHub** for version control; received official verification and certificates from the company.

► VIRTUAL INTERNSHIP – ZERO TRUST CLOUD SECURITY 10 WEEKS INTERNSHIP – AICTE APPROVED

SEPT 2024

- Gained hands-on experience in **Zero Trust Architecture**, **cloud security** principles, and identity access management
- Completed security-based virtual labs and assessments; received **AICTE** approved Certification .

PROJECTS

► Personal Portfolio Website

- Developed a **responsive portfolio website using HTML, CSS, and JavaScript** to showcase projects and Technical skills.
- Deployed the site using **GitHub pages** with custom styling, ensuring accessibility, mobile responsiveness, and professional presentation.

► Snake Game

- Created a classic Snake Game using **Python** and **Pygame**
- Implemented game mechanics including **Snake movement** , **food spawning** , **collision detection** and **score tracking**.

► Java FX calculator

- Built a **JavaFX- Based Calculator** with a user-friendly GUI supporting arithmetic operations and exception handling.
- Applied **object-oriented programming principles** in Java to ensure modularity, scalability, and maintainability..

► Blood Donation Management System (SQL)

- Designed and implement a **database-driven application** to manage donor, recipient, and blood inventory records using MySQL.
- Integrated Java with SQL for **CRUD operations**, **form validation**, and **real-time search functionality**, improving efficiency in record handling.

EXPERTISE

- Problem Solving & Logical Thinking.
- Debugging & Code Optimization.
- Team Collaboration & Communication Skills.

CERTIFICATIONS

► Cloud Computing – NPTEL Elite Certification (65%)- Apr 2024

- Gained knowledge of cloud service models (**IaaS ,PaaS , SaaS**) and deployment models (Public , Private , Hybrid).
- Learned about virtualization, distributed storage, and resource management in cloud environments.

► Deep learning for visual computing – NPTEL Certification (58%) – Apr 2025

- Studied deep learning architecture such as **CNNs** for image classification and object detection.
- Learned about training models, feature extraction, and applying visual computing techniques to real - world datasets.

EDUCATION

- **HSC** – SPM Educational Institutions – 80%
- B Tech - Information Technology in Sri Shanmugha College of Engineering and Technology with 8.1 Cgpa
